Miron,

These need to be reviewed and modified to suit Blair Walker. The project is un-named but can be called a multistate land development company with proposed holdings in Utah, Montana, Idaho and Colorado.

The edits should include at a minimum,

Change listing cost to 150.

Change potential raise from 6 million to a higher number in a time frame you are comfortable with.

References to Roney etc should be replaced.

Of course, you may see other needs.

Thanks,  
David
